

The document outlines the eligibility and application process for the Good Student Discount (GSD) on an automobile policy for young drivers. To qualify, the driver must be licensed, aged between 16 and 25, and a full-time student at a high school, college, university, or vocational technical school, meeting at least one specified scholastic requirement. The discount is not automatically renewed; recertification is required annually. To apply for the discount, the policyholder must provide an electronic signature or a signed application, along with proof of eligibility, which can include a transcript, grade report, or a letter from a school official. If submitting a transcript or similar document, the number "485" must be written at the top. Applications can be mailed or faxed, and must be submitted within 30 days of the request. The document emphasizes that a new application is necessary each year and warns that misrepresentation may lead to termination of the insurance policy. Additional applications can be obtained upon request or downloaded from the USAA website.
