

MDA Insurance provides Final Expense insurance, a specific type of life insurance designed to cover funeral, burial, and medical costs associated with an individual's final expenses. This insurance is particularly suitable for seniors who may not qualify for traditional life insurance or find it financially burdensome to maintain previous premium payments. Policies can be issued for face amounts ranging from \$2,000 to \$40,000 and are available to individuals up to age 85. To obtain a free, no-obligation quote, individuals must provide personal information, including their name, date of birth, gender, tobacco use, home address, and health status. They are also asked if they are bedridden or confined to a care facility, and whether they take any medication. The quote can be requested for specific amounts in increments of \$1,000 within the stated range, and an Accidental Death Benefit rider can be added. Interested parties can choose to receive their quote via mail, email, fax, phone, or in-person appointment. For further inquiries, MDA Insurance can be contacted at their Okemos, MI office or through their website.
