

The AARP® Home Insurance Program from The Hartford invites members to request a home insurance quote by completing the “Request for Quote Form” within 60 days of the initial request. Interested individuals must provide all requested information and submit the form along with necessary documentation, such as a current homeowners policy declarations page, mortgage statement, good faith estimate, or deed, to The Hartford at P.O. Box 14180, Lexington, KY 40512-9919. If eligible, a no-obligation quote will be sent for comparison with existing coverage and premiums. It is important to note that the program is underwritten by various Hartford affiliates depending on the state, and new home business is not available in all areas, including California and Florida. Additionally, savings, benefits, and coverage may vary, and some applicants may not qualify. If the 60-day period lapses, individuals must restart the online quote process, as forms submitted after this timeframe will not be reviewed. The program is not available in Canada or U.S. territories. AARP and its affiliates do not act as insurers and require AARP membership for eligibility in most states.
