

This amendatory endorsement modifies the existing insurance policy while retaining all other provisions. The term "spouse" is expanded to include "domestic partner" as recognized under Nevada law. The policy allows for the purchase of additional coverages or services from State Farm Companies, which may affect premiums. The definition of "Resident Relative" is updated to include individuals related by blood, marriage, or domestic partnership, as well as certain wards or foster children. Liability coverage is clarified, stating that the insurer will pay damages for bodily injury and property damage caused by accidents involving insured vehicles, and it retains the right to investigate and defend claims. Supplementary payments include attorney fees, court costs, interest on damages, and certain expenses incurred during legal proceedings, with specific exclusions noted. Medical payments coverage exclusions are similarly adjusted to include certain individuals while using insured vehicles. Uninsured motor vehicle coverage is modified to reduce payable amounts by any workers' compensation or similar benefits, with specific exceptions for named insureds and their spouses. The policy specifies limited coverage in Mexico, stating that it does not comply with Mexican insurance requirements and detailing the extent of coverage available within 50 miles of the U.S. border. Premiums may vary based on additional products or services purchased, marital status, or domestic partnership status. Nonrenewal notices must be sent 30 or 60 days prior to the policy's end, depending on the vehicle's use, and the insurer may cancel the policy with written notice to the insured's address.
