

The Choice Auto, Home and Renters Program offers potential savings on auto insurance for NYU employees, with discounts of up to 15% available for eligible individuals. By calling the program, employees can receive quotes from five top-rated insurance companies, including Farmers GroupSelectSM, Travelers, Liberty Mutual, Electric Insurance Company®, and Progressive®, allowing them to compare current premiums and find the best value. Additionally, a multi-policy discount may be available for those insuring both auto and home or multiple vehicles, which could lower premiums for both auto and homeowners/renters insurance. The program also provides discounts on various other coverages, including insurance for boats, mobile homes, personal watercraft, RVs, motorcycles, and more. Employees can activate payroll deductions for premium payments, with no down payment required upon enrollment. However, it is important to note that home insurance is not available in Florida from the carriers in this program, and discounts may vary based on individual qualifications and state regulations. The program does not guarantee savings for all employees, and actual coverage, rates, and discounts may differ by state and product. For further details, employees are encouraged to contact a licensed representative or visit the program's website.
