

Chubb Automobile Insurance offers comprehensive protection for vehicles, featuring Agreed Value Coverage, which allows policyholders to determine their car's worth at the policy's inception, ensuring they receive a check for that agreed amount in the event of theft or total loss, potentially saving thousands. Policyholders have the freedom to choose their repair shop, with Chubb covering costs regardless of whether the shop is part of a network, and can receive referrals to certified shops through the Masterpiece Auto Preference Services (MAPS). The policy includes Rental Car Reimbursement Coverage, providing up to \$5,500 for rental expenses without a per-day limit, significantly exceeding typical coverage amounts. Chubb also covers Original Equipment Manufacturer (OEM) parts, ensuring repairs are done correctly with high-quality components. The policy features high coverage limits for liability and uninsured/underinsured motorist (UM/UIM) coverage, offering up to \$10 million in auto liability and \$1 million in UM/UIM protection, which serves as a robust defense in accidents or lawsuits. Additionally, Chubb provides worldwide rental car coverage, protecting against damage to rental vehicles globally, and includes worldwide auto liability coverage when a liability limit of \$1 million or more is purchased.
